

See a GP online over
secure video,
from home or work -
from your smartphone,
tablet or PC

As part of our commitment to improving access for our patients we're using **Q doctor** to enable video consultations with GPs.

This means for certain conditions* you can see a GP from home or work, without having to come to the practice.

Simply sign up to **Q doctor** and either call your practice to get a patient code or sign up directly using your photo ID. If your practice has opted to use codes to book appointments you can use your patient code to book your first video appointment, or if your practice isn't using appointment codes then just book an appointment that suits you.

* The app and website contain questions to establish whether your ailment is suitable for video. The clinician who sees you will make an informed decision as to the extent to which they can diagnose and treat you remotely.

Information for **Patients**

Via mobile

TO SIGN UP AND BOOK

- Download app
(Search Q doctor or Qdoctor)

- Allow notifications
- Find your practice and Sign up
- Follow instructions to sign up using Code or ID.
- To book, choose appointment type then follow instructions.

FOR THE APPOINTMENT

- Login to app a few minutes before your consultation time
